

Issue 17 of the journal Cartography and Geoinformation is published by the Croatian Cartographic Society

30.06.2012.

Issue 17 of the journal Cartography and Geoinformation is published by the Croatian Cartographic Society.

Content starts with the work of the authors Antonija Netolicki, Tomislav Blažević and Andrija Antolović [Multicriteria Analysis of Fire Risk in the Split-Dalmatia County](#).

The following papers are [Thematic Maps for Humanitarian Demining](#) (author: Andrija Krtalić), [Proposal for a New Model for Highway Records in the Republic of Croatia](#) (authors: Rinaldo Paar, Zdravko Kapović and Ante Marendić) and [Use of Multicriteria Valuation of Spatial Units in a System of Mass Real Estate Valuation](#) (author: Miroslav Kuburić).

You can read about the conferences, Language Reference Book, solve the crossword and find many other interesting articles.

Full texts are available for free on [these pages](#) and [portal HRCAK](#).
