

International Symposium on Service-Oriented Mapping

22.11.2012. - 23.11.2012.

The International Symposium on Service-Oriented Mapping will take place in Vienna, Austria, 22-23 November 2012.

Map production makes use of crosslinked spatial data infrastructures and -sensors more and more. These Service-Oriented Architectures (SOA) call for new modes of thought, which influence all areas of map production, e.g. geospatial recording, map design, map compilation, geodata providing, cooperations, printing, publishing, libraries and archives. This symposium offers a framework to present, exchange and discuss essential developments, perspectives and actual best-practices of service-oriented map production.

Abstract Deadline: June 1 st 201 2.

Abstract Author Notification: June 22nd 201 2

Full-Paper Deadline: August 3rd 201 2.

The symposium is coorganized by several ICA commissions:

ICA Com. on Map Production and Geobusiness

ICA Com. on Atlases

ICA Com. on Map Projections

ICA Com. on Maps and the Internet

ICA Com. on Open Source Geospatial Technologies

ICA Com. on Use and User Issues
