

Registration and Abstract Submissions

Please register on-line through <http://www.kartografija.hr> no later than **September 10, 2014**. Please note that the number of participants is limited.

All authors are invited to send abstracts on-line until September 10, 2014.

Registration Fee

Registration fee A amounts 1500 HRK and includes participation at the conference all tree days, conference materials and the post-conference tour.

Registration fee B amounts 1200 HRK and includes participation at the conference for the first to days and conference materials. The post-conference tour is not included.

Registration fee C amounts 900 HRK and includes participation on the first day of the conference only, and conference materials. The post-conference tour is not included.

Members of the Croatian Cartographic Society have a 10% discount.

Students, retired people and others can pay reduced fee if they submit a request to the organizers.

The registration fee should be paid to the Croatian Cartographic Society's account at the Zagrebačka banka d.d., Paromlinska 2, Zagreb, Croatia, SWIFT ZABA HR2X, IBAN HR6723600001101509436 and informed the organizers by August 30, 2014, at the latest.

The fee does not include accommodation costs. All participants have to take care of their accommodation in Zagreb.

International Organizing Committee

Prof. Paulo Menezes, ICA Vice-President, Brazil

Prof. Philippe de Maeyer, Chair of ICA Commission on Map Production and Geo-Business, Belgium

Prof. Vladimir Tikunov, Lomonosov Moscow State University, Chair of ICA Commission on GI for Sustainability

Prof. Temenoujka Bandrova, President of the Bulgarian Cartographic Association, Bulgaria

Prof. Milan Konecny, Chair of ICA Commission on Cartography in Early Warning and Crisis Management, Czech Republic

Local Organizing Committee

Miljenko Lapaine, President, CCS, Zagreb

Dražen Tutić, CCS and Faculty of Geodesy, University of Zagreb

Martina Triplat Horvat, CCS and Faculty of Geodesy, University of Zagreb

Scientific Committee

Assoc. Prof. Josip Faričić, University of Zadar, Department of Geography

Assist. Prof. Ivka Kljajić, University of Zagreb, Faculty of Geodesy

Prof. Renata Pernar, University of Zagreb, Faculty of Forestry

Assist. Prof. Milan Rezo, University of Zagreb, Faculty of Geotechnical Engineering, Varaždin

10th Jubilee
**Cartography and
Geoinformation**
International Conference
Zagreb, October 10-12, 2014

Organized by
the **Croatian Cartographic Society**
Zagreb, October 10-12, 2014

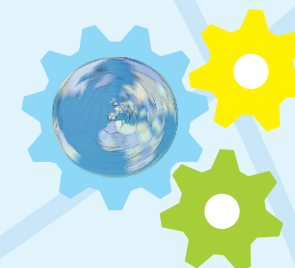

Endorsed by the

International Cartographic Association – ICA

Followed by a seminar

**The Role of Geodesy and Geoinformatics
in Sustainable Development**

Zagreb, October 13, 2014

Organized by IT Section of Student Council,
Faculty of Geodesy, University of Zagreb

Location

The Miroslav Krleža Institute of Lexicography,
Great Hall, Prilaz Gj. Deželića 2, Zagreb

Introduction

The Croatian Cartographic Society wants to contribute to the development of geoinformation, cartography, geography, geology and related fields, with a particular emphasis on GIS and spatial data infrastructure. A wide variety of topics and keynote speakers guarantee interesting lectures and a contemporary approach.

The Republic of Croatia is a regular member of the International Cartographic Association (ICA) since 1995, and the Croatian Cartographic Society represents Croatia in that Association. This 10th Conference will continue the intensive work undertaken by Croatian cartographers in the international cartographic arena providing a good opportunity to continue the series of cartography related events. Considering the above the ICA was very pleased to be able to endorse the 10th Conference on Cartography and Geoinformation. Moreover, Prof. Dr. Georg Gartner, the ICA President will have a keynote lecture on the first day of the Conference. The ICA has decided to celebrate an International Map Year during the years of 2015 and 2016 and has also formed a working group to plan and organise that task. The ICA expects that all ICA member countries will participate in order to give their citizens a broader knowledge of maps – how they are produced and used for many purposes in society.

Another goal is to give school children and university students an opportunity to learn more about cartography and about its neighbouring geospatial sciences geodesy, photogrammetry, remote sciences and surveying. ICA has about 80 national members, and the UN will be helpful in establishing contact with all other countries in the world, so that the international map year will be celebrated worldwide. The Conference participants will have the opportunity to create the Croatian program of the International Map Year and to be involved in it. Previous conferences organized by CCS showed increasing interest in cartography and geoinformation by many non-geodesists. Nowadays, it is difficult to find professionals who do not need maps and spatial information, which means it is truly an interdisciplinary field.

Topics

- Cartography and geoinformation in education
- Topographic, military, geological and maritime mapping
- GIS in local government and economy
- GIS in crisis situations
- Spatial Data Infrastructure
- Development of spatial databases
- Spatial data quality
- Map projections
- Cartography and the Internet
- Cartographic generalization
- Spatial data and copyright
- Visualization of spatial data
- Historical topics
- International Map Year 2015

The Organizing Committee will review requests of other topics related to cartography, geography, geodesy, geology, geoinformatics and other professions. The conference program and abstracts will be published in paper form and presentations will be posted on the Croatian Cartographic Society website.

Keynote Speakers

- Prof. Georg Gartner**, President of ICA,
University of Technology, Vienna, Austria
- Assist. Prof. Dušan Petrovič**, University of Ljubljana,
Slovenia
- Dr. Suchith Anand**, Nottingham Geospatial Institute,
University of Nottingham, ICA Commission on
Open Source Geospatial Technologies, Chair
- Dr. Joep Cromptvoets**, Public Management Institute
of Katholieke Universiteit Leuven, Secretary-
General of EuroSDR
- Prof. Yerach Doytsher**, Israel Institute of
Technology, FIG Commission 3 on Spatial
Information Management, Chair

Meeting of the ICA Commission on Map Projections

Prof. Dr. Miljenko Lapaine is the Head of the Commission on Map Projections of the ICA. The meeting of that Commission is planned on Saturday 11, 2014 and will be opened for everybody interested in map projections.

Orienteering Competition

For the first time there will be an orienteering competition organized during the Conference on Cartography and Geoinformation. Participants will be given a specially prepared orienteering map, which they will use to find control points. The winners will be awarded with specially designed diplomas.

Post-conference Tour

One day walking tour to the Medvednica Nature Park is scheduled on Sunday, October 12, 2014. We will visit several geological sites, be acquainted with natural beauty of Medvednica and have a lunch in a mountain house.
